

DC Voltage Reducer

EuroCB ECV-1822

Input Voltage	24VDC
Output Voltage	13.8VDC
Nominal Current	18 Amp
Surge Current	22 Amp
Dimension (mm)	300x130x65

Feature: Overload and over output voltage electronic protection. Feedback voltage stabilized

EuroCB ECV-3040

Input Voltage	24VDC
Output Voltage	13.8VDC
Nominal Current	30 Amp
Surge Current	40 Amp
Dimension (mm)	245x120x120

Feature: Overload electronic protection. Polarity Inversion and over output voltage protection by SCR. Electric fan protection against overheating.

EuroCB ECV-5060

Input Voltage	24VDC
Output Voltage	13.8VDC
Nominal Current	50 Amp
Surge Current	60 Amp
Dimension (mm)	320x120x120

Feature: Overload electronic protection. Polarity Inversion and over output voltage protection by SCR. Electric fan protection against overheating.
